

# DESIGN MEETS TECHNOLOGY

- ⌚ HUMAN CENTERED DESIGN
- ⌚ 360° USER EXPERIENCE & ERGONOMICS
- ⌚ THE HOLISTIC WORKPLACE REVOLUTION

## ☉ LIGHT & SOUND BAR

The innovative light & sound bar combines all-round visibility of RGB LED signals (e.g. busy/free/...) with dimmable LED workspace lighting. It lets you choose the lighting environment which is right for you, day or night, by offering lighting options similar to natural daylight or softer tones. The LIGHT sound system delivers audio output from above to where you need it – your own workspace – which also helps to reduce the general noise level in the room.

## ☉ DESK CONTROL

e D E S K has a number of innovative features built into its table design and operation which makes it intuitive and simple to use as well as providing a clear space to work in. Table and monitor height, touchscreen tilt, lighting and volume, for example, are easily adjustable from touch panels next to the main touchscreen.

## ☉ CLEAR DESK - INTERFACE PANELS

e D E S K offers great flexibility if you need to plug in and use additional equipment. In contrast to the conventional second control panel on the desk, freely configurable, foldaway interface panels in the desktop give you the option of always have a “clear desk”. You can also access power outlets or temporarily connect a radio control unit as and when you need to.
